

find my baby

the clock is ticking but I got no time
the hook is sinking but I got no line

to find my baby
got to find out where she's gone
I got to find my baby
got to find out where she's gone

I've looked in windows and I've peeped in doors
I've searched in places I ain't been before

to find my baby...

you live a moment live a life
no difference 'tween the two
it's all too long and all too fast
when no one's next to you

the birds are singin' as if nothing's changed
the bees are buzzin' like she'll come again

I got to find my baby...
